[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO DEC. 3.

EASTERN STATES.

The Thieves of the New York Ring.

NEW YORK, Dec. 1.—The *Tribune* stated that Connolly yesterday prepared a full confession of all transactions of the Ring, and that three of Tweed's bondsmen, including Hugh Hastings and the *Commercial Advertiser*, have signified their intention to withdraw.

Alexis, after inspecting the West Point Academy, returned here this afternoon.

Connolly is hedging to deepair of securing bail. The Sheriff thinks there is no possibility of such an event.

Three of Tweed's bondsmen have signified their intention to withdraw their names. If others are not secured he will share the fate of Connolly.

Mayor Hall has not been arrested.

General News.

NEW YORK, Dec. 2.—It is understood there will be no radical change at the Custom House by the new Collector, General Arthur.

General Dix to-day will present to the Duke Alexis a picture of the late Admiral Farragut, to be presented by him to his father, the Emperor of Russia.

Alexis has accepted the invitation to visit Lowell.

The Russian fleet leaves in a few days for New Orleans, where the Prince will join it at the close of his tour of the States and proceed to China.

WASHINGTON CITY.

Official Business.

WASHINGTON, Dec. 2.—Among the appointments yesterday was that of Geo. A. Hart as Collector of Customs at San Francisco.

Nearly all the reports of the various Departments and chiefs of Bureaus are completed.

The President's Message is finished and will be read at a Cabinet meeting to-morrow. The reports will be sent to the press, as heretofore, in advance of their delivery to Congress, but not to be published until the time. The President's Message being in manuscript, it will be telegraphed. The President and heads of Departments give no intimation whatever of its contents.

The public debt is reduced $3,462,000 the past month.

Public Buildings on the Pacific Coast.

WASHINGTON, Nov. 30.—Supervising Architect Mullett reports that the progress of the work on the Branch Mint at San Francisco, has been satisfactory and will be completed during the ensuing season. Estimates for this building, as well as for all others on the Pacific coast, will be prepared on the basis of disbursements in coin. The Department having, however, decided that all payments must be made in currency, and the amount of the appropriation must be increased accordingly with the addition. Estimates will be found correct and the work is to be finished at an early day, as soon as the necessary machinery can be completed, for which an appropriation must be made.

The Forthcoming Department Report.

WASHINGTON, December 1.—The report of the Secretary of the Navy will recommend more liberal appropriations by Congress, those of last year having been insufficient for effective force, no more than thirty or forty vessels being now afloat out of one hundred on the list, exclusive of fifty iron-clads, nearly all of which are laid up and out of service. The Secretary read the proof slips of his report to-day. The Postmaster General is sending to distant points copies of his annual report. He incloses a note to the publishers, depending upon their honor not to print the report in advance of its delivery to Congress. He will again recommend the abolition of the franking privilege, and ask for legislation to relieve the Department from delay and embarrassment in re-advertising proposals for carrying the mails in cases where there have been deceptions and failures by "straw bids," to make provisions for giving contracts to the lowest responsible bidders.

The interest on the called five-twenty bonds, being the balance of the first series of the issue of 1862, closes to-day. Payments of the new five per cents have come in with unexpected promptness. Coin will be needed for the payment of the six per cents. Eight millions of gold have been paid on account of cash redemptions, which amount covers all the bonds presented for cash payment on both foreign and domestic account. Most of the one hundred millions of five-twenties called in for December 1st have been taken up by American and European syndicates. These will be used in the settlement for the new fives. It is therefore improbable that a very large amount of additional gold will be required to close transactions.

BY ATLANTIC CABLE.

From London.

LONDON, Dec. 1.—The morning bulletin from Sydenham states that there was an increase of fever in the case of the Prince of Wales early in the evening of yesterday, but as night advanced the fever again partially subsided. The Prince remained comparatively quiet through the remainder of the night.

The Earl of Chesterfield died to-day of typhoid fever. He contracted the disease about the same time and in the same locality as the Prince. The death of the Earl of Chesterfield intensifies the anxiety for the Prince of Wales. Public uneasiness is so great as to have a perceptible effect on the markets, which are dull and flat to-day.

A final settlement of the United States funded loan was made to-day without disturbing the money markets, the bonds closing higher than ever before, and the loan advancing to 90¾ gold, because the settlement was anticipated. A portion of the loan was unsettled at the opening of the books to-day. Of the $20,000,000, nearly $15,000,000 was arranged in London, leaving less than $6,000,000, undisposed of, with the continent to hear from. There is no doubt that the whole of the loan is European markets is taken.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Dec. 1.—The reported revolutionary raid from Cape St. Lucas on Magdalena Bay has no foundation beyond the fact that, in pursuance of the orders of the Federal Government annulling the contract and closing the port of Magdalena, General Dovalle, Governor of Lower California, sent a small armed force to compel the Lower California Company to suspend operations. They have wholly disregarded the order.

The little steamer *Coquille*, concerning the safety of which some apprehension has been expressed, arrived this morning from Rogue river, all right, with a cargo of salmon, staves, etc. None of the vessels arriving from the north have brought word concerning the bark *Live Yankee*, since she sailed from Portland, twenty-five days since, and all hope of her safety is abandoned.

SAN FRANCISCO, Dec. 2.—The jury in the Hawes will-case have just returned a verdict affirming the insanity of the testator, consequently invalidating the will. The verdict is received with great satisfaction in the community, public sympathy being almost wholly in favor of the widow and children.

This evening a fire broke out in the rear room of Taylor & Co's job printing office, 517 Clay street, below Llodesdorff, and in a few minutes very heavy damages had been inflicted. Taylor & Co's office was in the third story, and it was pretty thoroughly cleaned out. The *Call* office, *Bulletin* office, and Valentine's book and job office on the second floor were flooded with water, and the stock badly damaged. The basement was also flooded, and the *Bulletin* steam presses rendered unserviceable for the time. The *Call's* stock of paper was badly damaged. The total loss will probably reach $20,000 and it may double that figure.

The wound of Judge Wheeler from the bullet from Judge Lake's pistol is not so serious as at first supposed, and he is very comfortable. Dr. Young is not seriously hurt and will be as well as ever in a few days. Judge Lake gave his own recognizance for $5,000, and is going to Nevada next week, the case having been set for Monday week.

The *Auguste* cleared to-day for Hong Kong with 3,000 barrels flour, and the Panama steamer carried 1,600.

INTERIOR CALIFORNIA DISPATCHES.

The California Legislature.

SACRAMENTO, Dec. 2.—The Democratic Senators are in caucus to-night, but will make no nominations until Monday night. The Republican Assembly Caucus meets Monday afternoon. The city is crowded and a great deal of wire-pulling is going on, but there are no developments as yet. Shannon and Boruck will probably win in the organization.

The Los Angeles Rioters Indicted.

LOS ANGELES, Dec. 2.—The grand jury submitted their report this afternoon. The report concludes as follows: The results of our labors will be found in the indictments which we now present. Thirty-seven persons were indicted for riot; two of these were also indicted for assault with deadly weapons, two for assault to commit murder, and twenty-five for murder. Besides eight Chinamen were also indicted for murder, or for assault to commit murder—making forty-five indictments in all.

OREGON.

There were thirteen marriages in Linn county last month.

S. R. Hammer is an independent candidate for Mayor of Salem.

Real estate transactions for the past two weeks in Linn county foot up $69,256 46.

Forty couples were in attendance at the Thanksgiving Ball, at the Chemeketa Hotel, Salem, on Thursday night.

On Sunday and Monday of last week the Columbia river at the Dalles rose about eight feet. This shows that heavy rains had fallen in the region of Snake river.

The Dalles *Republican* says that the fellow who administered drugs to a young woman to accomplish her ruin a few weeks ago has settled the difficulty by marrying her.

On Friday morning the snow at the Dalles was five inches deep. In the afternoon rain began to fall. The *Mountaineer* fears a hard winter and a great loss of stock, as there is little hay to feed them.

The ladies of the Congregational Church at the Dalles gave a concert and festival last Thursday evening, for the purpose of raising funds to pay for their church organ. The entertainment was very agreeable and successful.

The Virtue Gold Mining Co's mill in Baker county is running night and day with good results. Considerable snow is falling in the mining districts in that part of the State and a good mining season is looked for next year.

In parts of Eastern Oregon politics are "starting up." E. W. Reynolds is in the field as a candidate for Sheriff in Baker county. The *Bedrock Democrat* attacks him, but entirely on political grounds, which convinces us that he ought to be elected.

From the Statesman: What effect the *Herald's* suggestion, made a year or so ago, that the retired statesman over in Polk had best attend to the feeding of his swine, actually had on that individual, we cannot say, but we learn from good authority that ex-Senator Nesmith lately killed 112 head of fat hogs, and has twenty more in the pens. That looks very much as if somebody had taken the hint.

A circular from the Yamhill County Teachers' Association informs us that the fourth session of that body will be held at Lafayette, commencing on Tuesday, the 26th inst., and continue four days. The discussions during the day sessions will be devoted to practical questions as to the modes of teaching and methods of illustrating different operations in the general branches of common school learning. During the evening sessions addresses will be delivered on educational topics by a number of prominent gentlemen. Provision has been made for the accommodation of those who may attend the Association.

THE TERRITORIES.

Hon. Elwood Evans, of Olympia, is seriously ill.

At Steilacoom two and a half miles of the shore line are offered for the terminus.

The Vancouver *Register* says that the Olympia *Tribune*, turned against Garfield because he wouldn't subsidize it.

In Montana the Blackfeet and Crow Indians are raiding on each other, and herds of horses are changing hands fast.

We have a rumor from Washington Territory that both Judge Kennedy and Gov. Salomon have tendered their resignations. Not probable.

It is stated that the Puget Sound Steam Navigation Company will shortly place two fine steamers on the route between the Sound and San Francisco.

A drunken ruffian named Johnson made an unprovoked attack on Rev. Father Brouillette, at Vancouver, last Sunday. Several men rushed to the scene, and after a long struggle, in which every article of clothing was torn from the assailant, he was handcuffed and taken to jail.

Alluding to the division of Clarke county, W. T., the Vancouver *Register* says: Clarke county can readily spare the little 7x9 nook cut out of it without serious detriment to its fair proportions. As far as Kalama is concerned, we are willing to give it walking papers any day. We think, on the whole, that Clarke county is gainer by the change.

Some weeks ago a man named Hussey stole a check for $1,600 on the Bank of British North America from W. C. Anderson, of Yale, forged Anderson's endorsement and got the money. An agent of the bank followed Hussey to Salmon river, in Idaho; but finding he could not take the rogue back without first getting papers from Boise City, he took back from him the $1,600, with $300 for expenses, and let him go unwhipped of justice.

Congreve's tragedy, the "Mourning Bride," begins with the well known line: "Music hath charms to soothe the savage breast." It has been suggested that the Chief of the War Department has recently been "turning over his Congreve," and finding this expression the happy thought has struck him to try it with the Apache Indians. Hence the order for the Twenty-Third Infantry, with its splendid band, to go to Arizona. This is the Vancouver *Register's* idea.

NEWS CONDENSATIONS.

Judge Williams arrived at Washington on the 13th November.

C. N. Lockwood and Col. Farrar are at Washington, attending to a granite quarry they are interested in near Richmond, Va.

The champion Base Ball Club of Chicago has been dissolved. The *Evening Mail* is glad, but hopes the nine will not have to be supported by the Relief Committee.

Indications now are that most of the leading Tammany thieves are to be forced into the penitentiary out of the fat offices they have been holding. Even their boudsmen are abandoning them.

The total population of the New Dominion, according to the census, is 3,434,924. Nova Scotia has shown a greater percentage of increase in the last ten years than any other part of the Dominion.

Boss Thief's son Dick has been forced to retire from the proprietorship of the Metropolitan Hotel in New York City. This indicates the tremendous popular aversion to everybody connected with the thieving ring.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

More about the Russian Boy.

NEW YORK, Dec. 2.—At a banquet this evening at Delmonico's by the New York Yacht Club, the Grand Duke Alexis in reply to a toast toasted expressed deep gratitude for the warm reception he had everywhere met with since his arrival in the United States. He said the remembrance of his visit would ever form the most cherished recollection of his life.

Gen. Dix, in behalf of the citizens of New York, presented the picture of Farragut to Alexis this afternoon. Alexis accepted the picture on behalf of his father, saying it would take a place among the choice collections of the Russian government. He trusted peace and good will would never be disturbed between the two countries.

Connolly denies having make application to Judge Learned at Albany to have his bail reduced.

No vessels are at the quarantine and the excitement in regard to the cholera is wholly subsided.

South Carolina Legislature.

CHARLESTON, Dec. 2.—In the House of Representatives at Columbia to-day, C. C. Bowen presented credentials as a member from Charleston. Objections were made that he had been convicted of an infamous crime. He was finally admitted by 311 to 32.

WASHINGTON CITY.

Internal Revenue Statistics.

WASHINGTON, Dec. 2.—The report of the Commissioner of Internal Revenue states that the aggregate receipts from all sources exclusive of direct taxes upon lands and duty upon circulation and deposits of national banks, for the fiscal year 1871, is $144,011,176. This sum includes the amounts refunded and allowed on drawbacks amounting to $610,408. The Commissioner's estimate of the receipts for the current year, under the present law, is $125,000,000. Receipts from spirits for the fiscal year were $36,289,108. Amount of tax received on fermented liquors $7,159,740. Total receipts from tobacco, $33,578,007—an increase of $2,250,000 over last year. The total amount of manufactured tobacco represented by the amount of collections is 105,828,963 pounds. The total number of cigars, cheroots, etc., on which taxes were collected was 1,832,844,357. The increase is due to the recent changes in the mode of collecting. The Commissioner favors the consolidation of the tobacco tax at the rate of 24 cents, if it can be done without loss to the Government, and expresses the opinion that the present system of export bonded warehouses can be entirely abolished to the interest both of Government and manufacturers. He recommends Congress to provide that evidence of loss of labels of less satisfactory to Commissioner, or be a certificate from banks, etc., that tobacco, on which a tax has been paid, has been destroyed by accident, without fault on the part of the person interested, the spirits being thus exposed to seizure and detention; authority is asked to protect such spirits by restamping.

Owing to Congressional omission to authorize remission of taxes on ship-builders, he has ordered such taxes to be collected.

He recommends that Commissioners be prohibited from considering or allowing any claim not presented within two years from the time the tax was paid, and that claims be barred in courts after six years from date of payment of tax.

The report concludes by stating that 230 accounts of ex-collectors are still open; 115 of which have been placed in the hands of attorneys for suits against bondsmen of delinquents. The total amount received from compromised revenue cases for the year is $618,497. Total value of seizure, $915,840.

The Secretary of the Treasury has authorized the issue of papers to the schooner *Horton*, recently seized at Gloucester by the Collector of Customs, as a full investigation of facts shows there is no reason for depriving owner of necessary sailing papers.

German Difficulty with Brazil.

BERLIN, Dec. 2.—The Brazilian difficulty is still pending. The *Gazette* asserts that nothing but an apology from the authorities of Brazil and indemnification of injured parties will satisfy the German Government.

From Dresden.

POLITICAL NOTES.

The only thing left for the Tammany thieves is to steal away. This they are trying to do, having taken everything else.

The New York *Citizen*, a Democratic paper, says that since the defeat of Tammany many of its adherents have gone to work at their old trades, and that the demand for 'jimmies' and skeleton keys has gone up."

The Boston *Journal* insists that Vice President Colfax should not decline a renomination if the National Convention shall see fit to tender it. If he shall persist, however, in declining, it thinks an Eastern man should be nominated.

The *Benton Democrat* recommends the organization of Democratic clubs. To which the Eugene *Journal* responds: Wouldn't it be more consistent for the Democracy to organize Republican clubs, when they are casting about for a Republican for a Presidential candidate?

Says the New York *Herald:* The Washington *Patriot*, a Democratic organ, said to be founded by the Tammany Ring for Presidential purposes, comes out for Senator Sumner as the man for the Democracy against General Grant in 1872. Shades of Butler and Brooks, of South Carolina, has it come to this?

D. W. Voorhees, a distinguished Indiana Democrat, published recently in the Terre Haute *Journal* his view of the causes which so signally defeated his party in the late September, October and November elections. He thinks the "new departure" of Vallandigham the chief one, and having rushed to this conclusion he rushes to the other one that the only remedy is in "going back to first principles." That is to say: State sovereignty, the right of secession, the virtue of rebellion, nullification of the laws of Congress whenever they don't please a State, and, as corollary to this, repudiation of the national debt, a contempt for the three latest amendments to the Constitution and a disregard of all the laws enacted to enforce them.

The Eugene *Journal's* Washington correspondence says that Col. Kelly has purchased a house in the "Great row," on East Capitol street, Capitol Hill. These houses, covering a whole square, and fronting on four streets, were erected lately by Captain A. Grant, and the market value is about $25,000 each. They are elegant and handsomely furnished brick houses.

A Reminiscence.

[From the Chicago Evening Mail.]

It will be remembered that in the Ohio election for members of Congress a year ago, Hon. Robert Schenck was defeated in the Cincinnati District by fifty-three votes, and L. D. Campbell was declared elected. There was a very general feeling that Mr. Schenck had been defeated by fraud, and there was considerable talk of contesting the election, on the ground that the vote of the disabled soldiers in the Soldiers' Home at Dayton was unlawfully rejected. But Mr. Schenck was appointed Minister to England, and he had no time to devote to the matter, and the election was not contested. Politically, the question most affected by the defeat of Mr. Schenck, was that of protection. Campbell was a free trade man, while Schenck was Chairman of the committee, and a leading protective tariff man. The advocates of free trade throughout the country were immensely delighted over the change. There was a pause in the gloom of the people on this subject, as indicated by the defeat of Mr. Schenck. But time, which generally works all things equal, has done its work even in this case, and has shown that the great change that had taken place in the minds of the people of Mr. Schenck's district on the subject of a protective tariff was occasioned by a little ballot-stuffing by one Peter Schwab, one of the judges of election in the second ward of Hamilton.

Mr. Schwab, or "Pete" Schwab, as he is called for short, has confessed to having stuffed fifty-two votes for Campbell into his ballot-box after the polls were closed, and to having abstracted the same number of Schenck votes and deposited them in his own pocket, in the process of counting, that the number of votes might thus be made to tally with the poll list. The ballot-box stuffer, Schwab, has been indicted by the United States Grand Jury, and also by the Grand Jury of Butler county, for violating the State election law, and the probability is that Mr. Campbell will lose his seat in Congress at last. Thus, not only is the election of men sometimes determined by the crime of ballot-box stuffing, but important principles of political economy are, it seems, determined in the same manner.

Some of the Wisconsin papers estimate that four hundred square miles of territory in that State were burned over by the recent fires. In this track were four hundred farms, and not a building was left standing on any of them. In the Green Bay region the ravages to pine lumber alone is estimated at half a million dollars. In the burned tract were fifteen saw-mills, and two hundred dollars' worth of bark and cord-wood, besides many flouring mills and lumbermen's camps. A correspondent who rode all day in the burned region, saw but three men and a farming mill as farm stock, etc., having been swept away as by a mighty tornado. He estimates that the district will be at least thirty years recovering from the calamity. The houses, mills and stock cannot be replaced for five million dollars, yet nothing of the valuable forests and fences. But, saddest of all, is the loss of life. No one places the figure at less than a thousand, and there are official accounts of the burial of more than seven hundred.

EVIDENCES OF

DR. ABORN'S SUCCESS

IN CURING

DISEASES OF THE

LUNGS, CATARRH, BRONCHITIS,

AND

CURES.

The following is an extract from a letter just received by Dr. Aborn, from one of his patients:

ASTORIA, Oregon, Nov. 20, 1871.

DR. ABORN—Dear Sir:—I am happy to say that by following your directions and using your Inhaler for a few weeks after I saw you, I am entirely cured. To my hearing continues good; my lungs I believe are sound and the catarrh is cured. My bronchial affections are better than they have been for ten years.

I am fully satisfied that no other Doctor could have saved me from Consumption, or cured me of catarrh, bronchial affections, etc.

My deafness was cured in three days, lungs and bronchial affections in about four weeks. May you live long to bless the world by relieving suffering humanity.

Yours truly, DAVID STARR.

Still Another Remarkable Cure.

A PATIENT GAINS 15½ POUNDS AND RECOVERS HIS HEALTH IN FOUR WEEKS TIME UNDER THE SPIRITUAL TREATMENT OF DR. ABORN.

This is to certify, that I have been afflicted for three years, and that I kept declining slowly until the latter part of last May, when I was confined to my bed. My ailments which were, as before, Lung and Throat disease baffled the skill of every Doctor, and only left me weaker, until death would have been a relief at many times. Four weeks ago to-night I placed myself under the care of Dr. Aborn, whose treatment gave me immediate relief, and I commenced to gain so rapidly since, that after using his medicines only four weeks, I had regained fifteen and one-half pounds of flesh, and feel like a new man.

Yours truly, JAMES H. OGLESBY.

Newby, Clackamas Co., Oregon, Nov. 8, 1871.

CATARRH & NERVOUS DEBILITY.

TO THE AFFLICTED:—I wish to say, that I have been afflicted for about fifteen (15) years with Nasal Catarrh. Of late it affected my throat and lungs, and produced by whole system, so that I was scarcely able to perform any business. I had tried several physicians without deriving the least benefit. In this seemingly hopeless condition, I applied to DR. ABORN about three weeks ago, and placed myself under the treatment, and I am most happy to state that I found wonderful relief within five minutes after using his apparatus, and continued to improve. I am now cured of the cough and pains through my chest and body, and, in fact, both mentally and physically I feel like a new person. I have recovered from the nervous deb

[DISPATCHES TO THE OREGONIAN.]

LATEST DATES TO DEC. 2.

EASTERN STATES.

The Thieves of the New York Ring.

NEW YORK, Dec. 1.—The *Tribune* stated that Connolly yesterday prepared a full confession of all transactions of the Ring, and that three of Tweed's bondsmen, including Hugh Hastings and the *Commercial Advertiser*, have signified their intention to withdraw.

Alexis, after inspecting the West Point Academy, returned here this afternoon.

Connolly is beginning to despair of securing bail. The Sheriff thinks there is no possibility of such an event.

Three of Tweed's bondsmen have signified their intention to withdraw their names. If others are not secured he will share the fate of Connolly.

Mayor Hall Has not been arrested.

General News.

NEW YORK, Dec. 2.—It is understood there will be no radical change at the Custom House by the new Collector, General Arthur.

General Dix to-day will present to the Duke Alexis a picture of the late Admiral Farragut, to be presented by him to his father, the Emperor of Russia.

Alexis has accepted the invitation to visit Lowell.

The Russian fleet leaves in a few days for New Orleans, where the Prince will join it at the close of his tour of the States and proceed to China.

WASHINGTON CITY.

Official Business.

WASHINGTON, Dec. 2.—Among the appointments yesterday was that of Gen. A. Hart as Collector of Customs at San Francisco.

Nearly all the reports of the various Departments and chiefs of Bureaus are completed.

The President's Message is finished and will be read at a Cabinet meeting to-morrow. The reports will be sent to the press, as heretofore, in advance of their delivery to Congress, but not to be published until the time. The President's Message being in manuscript, it will be telegraphed. The President and heads of Departments give no intimation whatever of its contents.

The public debt is reduced $3,402,000 the past month.

Public Buildings on the Pacific Coast.

WASHINGTON, Nov. 30.—Supervising Architect Mullett reports that the progress of the work on the Branch Mint at San Francisco, has been satisfactory and will be completed during the ensuing season. Estimates for this building, as well as for all others on the Pacific coast, will be prepared on the basis of disbursements in coin. The Department having, however, decided that all payments must be made in currency, and the amount of the appropriation must be increased accordingly with the addition. Estimates will be found correct and the work is to be finished at an early day, and as soon as the necessary machinery can be completed, for which an appropriation must be made.

The Forthcoming Department Report.

WASHINGTON, December 1.—The report of the Secretary of the Navy will recommend more liberal appropriations by Congress, those of last year having been insufficient for effective force, no more than thirty or forty vessels being now afloat out of one hundred on the list, exclusive of fifty iron-clads, nearly all of which are laid up and out of service. The Secretary read the proof slips of his report to-day. The Postmaster General is sending to distant points copies of his annual report. He discloses a note to the publishers, depending upon their honor not to print the report in advance of its delivery to Congress.

He will again recommend the abolition of the franking privilege, and ask for legislation to relieve the Department from delay and embarrassment in re-advertising proposals for carrying the mails in cases where there have been deceptions and failures by "straw bids," to make provisions for giving contracts to the lowest responsible bidders.

The interest on the called five-twenty bonds, being the balance of the first series of the issue of 1862, closes to-day. Payments of the new five per cents have come in with unexpected promptness. Coin will be needed for the payment of the six per cents. Eight millions of gold have been paid on account of cash redemptions, which amount covers all the bonds presented for cash payment on both foreign and domestic account. Most of the one hundred millions of five-twenties called in for December 1st have been taken up by American and European syndicate. These will be used in the settlement for the new fives. It is therefore improbable that a very large amount of additional gold will be required to close transactions.

From London.

LONDON, Dec. 1.—The morning bulletin from Sydenham states that there was an increase of fever in the case of the Prince of Wales early in the evening of yesterday, but as night advanced the fever again partially subsided. The Prince remained comparatively quiet through the remainder of the night.

The Earl of Chesterfield died to-day of typhoid fever. He contracted the disease about the same time and in the same locality as the Prince. The death of the Earl of Chesterfield intensifies the anxiety for the Prince of Wales. Public uneasiness is as great as to have a perceptible effect on the markets, which are dull and flat to-day.

A final settlement of the United States funded loan was made to-day without disturbing the money markets, the bonds closing higher than ever before, and the loan advancing to 90¼ gold, because the settlement was anticipated. A portion of the loan was cancelled at the opening of the books to-day. Of the $200,000,000, nearly $15,000,000 were arranged in London, leaving less than $5,000,000 undisposed of, with the continent to hear from. There is no doubt that the whole of the loan in European markets is taken.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Dec. 1.—The reported revolutionary raid from Capo St. Lucas on Magdalena Bay has no foundation beyond the fact that, in pursuance of the orders of the Federal Government annulling the contract and closing the port of Magdalena, General Dovalle, Governor of Lower California, sent a small armed force to compel the Lower California Company to suspend operations. They have wholly disregarded the order.

The little steamer *Coquille*, concerning the safety of which some apprehension has been expressed, arrived this morning from Rogue river, all right, with a cargo of salmon, staves, etc. None of the vessels arriving from the north have brought word concerning the bark *Live Yankee*, since she sailed from Portland, twenty-five days since, and all hope of her safety is abandoned.

SAN FRANCISCO, Dec. 2.—The jury in the Hawes will case have just returned a verdict affirming the insanity of the testator, consequently invalidating the will. The verdict is received with great satisfaction in the community, public sympathy being almost wholly in favor of the widow and children.

This evening a fire broke out in the rear room of Taylor & Co's job printing office, 517 Clay street, below Liddesdorf, and in a few minutes very heavy damages had been inflicted. Taylor & Co's office was in the third story, and it was pretty thoroughly cleaned out. The *Call* office, *Bulletin* office, and Valentine's book and job office on the second floor were flooded with water, and the stock badly damaged. The basement was also flooded, and the *Bulletin* steam presses rendered unserviceable for the time. The *Call's* stock of paper was badly damaged. The total loss will probably reach $20,000 and it may double that figure.

The wound of Judge Wheeler from the bullet from Judge Lake's pistol is not so serious as at first supposed, and he is very comfortable. Dr. Young is not seriously hurt and will be as well as ever in a few days. Judge Lake gave his own recognizance for $5,000, and is going to Nevada next week, the case having been set for Monday week.

The *Augusta* cleared to-day for Hong Kong with 3,000 barrels flour, and the Panama steamer carried 1,000.

The California Legislature.

SACRAMENTO, Dec. 2.—The Democratic Senators are in caucus to-night, but will make no nominations until Monday night. The Republican Assembly Caucus meets Monday afternoon. The city is crowded and a great deal of wire-pulling is going on, but there are no developments as yet. Shannon and Boruck will probably win in the organization.

The Los Angeles Rioters Indicted.

LOS ANGELES, Dec. 2.—The grand jury submitted their report this afternoon. The report concludes as follows: The results of our labors will be found in the indictments which we now present. Thirty seven persons were indicted for riot; two of these were also indicted for assault with deadly weapons, two for assault to commit murder, and twenty-five for murder. Besides eight Chinamen were also indicted for murder, or for assault to commit murder—making forty-five indictments in all.

Hence the order for the Twenty-Third Infantry, with its splendid band, to go to Arizona. This is the Vancouver *Register's* idea.

NEW YORK, Dec. 2.—At a banquet this evening at Delmonico's by the New York Yacht Club, the Grand Duke Alexis in reply to a toast himself expressed deep gratitude for the warm reception he had everywhere met with since his arrival in the United States. He said the remembrance of his visit would ever form the most cherished recollection of his life.

Gen. Dix, in behalf of the citizens of New York, presented the picture of Farragut to Alexis this afternoon. Internal Revenue Statistics.

WASHINGTON, Dec. 2.—The report of the Commissioner of Internal Revenue states that the aggregate receipts from all sources exclusive of direct taxes upon lands and duty upon circulation and deposits of national banks, for the fiscal year 1871, is $144,011,176. This sum includes the amounts refunded and allowed on drawback amounting to $649,468. The Commissioner's estimate of the receipts for the current year, under the present law, is $125,000,000. Receipts from spirits for the fiscal year were $46,289,768. Amount of tax received on fermented liquors, $7,159,740. Total receipts from tobaccos, $38,528,007—an increase of $2,250,000 over last year. The total amount of manufactured tobacco represented by the amount of collections is 105,825,963 pounds. The total number of cigars, cheroots, etc., on which taxes were collected was 1,332,844,351. The increase is due to the recent change in the mode of collecting. The Commissioner favors the consolidation of the tobacco tax, at the rate of 24 cents, if it can be done without loss to the Government, and expresses the opinion that the present system of export bonded warehouses can be entirely abolished to the interest both of the government and manufacturers. He recommends Congress to provide that evidence of loss of tobacco at sea satisfactory to Commissioner be a certificate for drawbacks. Want of authority to furnish stamps for condemned tobacco which is constantly accumulating in the hands of good officers, causes much embarrassment, and the Commission recommends Congress to authorize him, upon requisition of officers having custody and control of tobacco, to furnish suitable revenue stamps, to be attached and cancelled before the same is offered for sale. As it frequently happens that stamps are lost from packages of spirits by unavoidable accident, without fault on the part of the person interested, the spirits being thus exposed to seizure and detention, authority is asked to protect such spirits by restamping.

Owing to Congressional omission to authorize remission of taxes on ship-builders, he has ordered such taxes to be collected.

He recommends that Commissioners be prohibited from considering or allowing any claim not presented within two years from the time the tax was paid, and that claims be barred in courts after six years from date of payment of tax.

The report concludes by stating that 230 accounts of ex-collectors are still open, 115 of which have been placed in the hands of attorneys for suits against bondsmen of delinquents. The total amount received from compromised revenue cases for the year is $018,497. Total value of seizures, $915,840.

The Secretary of the Treasury has authorized the issue of papers to the schooner *Horizon*, recently seized at Gloucester by the Collector of Customs, as a full investigation of facts shows there is no reason for depriving owner of necessary sailing papers.

POLITICAL NOTES.

The only thing left for the Tammany thieves is to steal away. This they are trying to do, having taken everything else.

The New York *Citizen*, a Democratic paper, says that "since the defeat of Tammany many of its adherents have gone to work at their old trades, and that the demand for 'jimmies' and skeleton keys has gone up."

The Boston *Journal* insists that Vice President Colfax should not decline a renomination if the National Convention shall see fit to tender it. If he shall persist, however, in declining, it thinks an Eastern man should be nominated.

The *Boston Democrat* recommends the organization of Democratic clubs. To which the Eugene *Journal* responds: Wouldn't it be more consistent for the Democracy to organize Republican clubs, when they are casting about for a Republican for a Presidential candidate?

Says the New York *Herald*: The Washington *Patriot*, a Democratic organ, said to be founded by the Tammany Ring for Presidential purposes, comes out for Senator Sumner as the man for the Democracy against General Grant in 1872. Shades of Butler and Brooks, of South Carolina, has it come to this?

D. W. Voorhees, a distinguished Indiana Democrat, published recently in the Terre Haute *Journal* his views of the causes which so signally defeated his party in the late September, October and November elections. He thinks the "new departure" of Vallandigham the chief one, and having rushed to this conclusion he rushes to the other one that the only remedy is in "going back to first principles." That is to say: State sovereignty, the right of secession, the virtue of rebellion, nullification of the laws of Congress whenever they don't please a State, and, as corollary to this, repudiation of the national debt, a contempt for the three latest amendments to the Constitution and a disregard of all the laws enacted to enforce them.

The Eugene *Journal's* Washington correspondence says that Col. Kelly has purchased a house in the "

The Daily Oregonian.

MONDAY MORNING, DEC. 4, 1871.

Our "Self Reliant" Governor.

The *Herald* is pained by our remark that "observing men don't go to Governor Grover to ascertain what his views are, for it is not understood that he has any." That paper takes such a remark as proof that "personal detraction is one of the diseases of Oregon journalism," and says it is "destitute alike of truth, decency and dignity." If the writer in the *Herald* had been in Oregon long enough to know anything whatever of Governor Grover we cannot suppose that even he would attempt the task of making anybody here believe that Governor Grover is a man of decided opinions, or anything else than a weather-cock, who has gained by his versatility and levity what celebrity he possesses. So when the *Herald*, following the Albany *Democrat*, asserts that there is not a "more self-reliant man" in Oregon than Governor Grover, everybody, who knows Grover must laugh in derision. Governor Grover is a man who dares not express any opinion on any important subject until he first sees what course public opinion is going to take. He has the halting timidity and dissimulation of the crafty demagogue; he always avoids taking a stand till he sees what the public are going to say about it, and when he makes this discovery he places himself at the front of the movement, whatever it may be. Grover's want of backbone seriously disconcerted the old Salem clique on more than one occasion. Hence Bush's sarcasm that "Grover was a sexual mistake; he ought to have been a woman." He has always nominally belonged to the Democratic party, and has generally compelled them to reward him for it on the plea of his availability. The only matters that he ever had any decided opinions upon, which he ventured to express till he first saw what others were going to do, were regarding negroes and Chinamen; and these he has been told to fight because he knew they could not help themselves. And he has even dropped the negro, now that the negro has a vote, but still valorously against the Chinaman still. The Chinaman is the principal subject of all his speeches and State papers; and even he doesn't think it *prudent* to be forward with opinions on other subjects, not knowing just what position future political emergencies may require him to assume. He has never fought the battles of his party, but has always been playing conciliatory dodges and trying to please everybody for his own benefit. Years ago when his party was fighting the Know Nothings he held back, impressed with the idea that it wouldn't be *prudent* for him to be too forward in a fight whose issue he could not forecast. So in the division of his party in 1858-9 he played fast and loose, trying to keep in with all factions, and betraying all alike. He abandoned Harding and Bush after they had sent him to Congress in 1858; played a double part with Delazon Smith in 1859 in the hope of beating him for the Senate, and kept aloof from the Congressional contest the same year because Stout was nominated over himself. In the following year he was both a Douglas man and a Breckinridge man, so that he might be in a position to go with whichever wing might obtain the ascendency. In 1861-62 he came very near allying himself with the Union party, but did not see his way clear to profit by it, so he kept back, not being able to make up his mind which would be the strongest side till it was too late to join the party with any prospect of advancement. And in like manner, as the Democratic party was then unpopular, he kept aloof from its councils, would accept no nomination and in no way commit himself, never came boldly to the front till 1870, and that was after his party had suffered by the previous election that it had a majority in the State.

Such a man is Governor Grover. Every person who possesses any information about Oregon's political affairs knows that this picture is truly outlined. If it does not do justice to Grover, its fault is that its lines are not drawn sufficiently clear and strong. It is emphatically true that he is "not known to have any opinions," save only his opinion about Chinamen; and he thinks it safe to regard an expression of that opinion, because the Chinaman has no defenders. But to speak of him as our "firm" and "self-reliant" Governor, that would suit about as well as it would to apply to volatile Hermes the epithets used to distinguish warlike Mars.

Railroad Grants.—When Do They Take Effect?

A few days ago we clipped and printed a paragraph from the Olympia *Tribune* relating to a recent decision by Justice Field in the United States Circuit Court, affecting the interest of many persons in Nevada in lands situated along the route of the Central Pacific railroad. It was stated that Judge Field held that the grant to the railroad went into effect when the bill passed and settlers took their claims subject to the provisions of the bill. Therefore the company gained a title at once to the whole grant, and could dispossess all settlers who had entered upon the lands after the passage of the act and prior to the building of the road. The *Tribune* added editorially:

> If this decision be sustained, it will invalidate a large number of titles to lands in this and other Territories, having a bearing upon the Northern Pacific Railroad, which passes for its entire length to the last named route. The press and people of Montana are discussing the question, not without alarm. A large proportion of the existing claims in the vicinity of Puget Sound were taken long subsequent to the passage of the bill, and are, therefore, under this ruling, subject to its provisions.

Since the publication of the above a few days ago an official copy of Judge Field's decision has come into our hands, and an examination of it shows that the ruling was very different from that stated above. In fact the question concerning which the *Tribune* expressed so much alarm was not raised at all. The suit was brought by the company "to determine the estate and interest claimed by them in the land over which the line of railroad constructed by the company runs, between the boundary of Nevada and the big bend of the Truckee river, in that State." The bill was simply a bill of peace; its object was to quiet the title of the company in their right of way, and to prevent a multiplicity of harrassing suits. After stating the case Judge Field went on to say:

> The real question presented by this case is, when did the right of way to the extent of two hundred feet on each side of the road vest, under the Act of Congress, in the plaintiff? The defendants contend that the grant of the right of way was subject to the same limitation which is prescribed by the Act to grants of the alternate sections, namely, that the land designated was not reserved or otherwise disposed of by the United States, or, that a pre-emption or homestead claim had not attached to it *at the time the line of the road was definitely fixed*; and hence it is argued that the bill in asserting that the defendants' claim, by purchase made from the Government subsequent to the passage of the Act of Congress, does not negative all possible right in them, as they may still have acquired their interests before the definite location of the road.
>
> The construction for which the defendants thus contend is clearly incorrect. The grant of the right of way is a present grant, operating immediately upon the passage of the Act, without reservation or exception, and is subject to no conditions except those which are subsequent, or necessarily implied, such as that the road should be constructed within the period specified, and be afterward maintained and used for the purposes designated. All acquisitions of land over which this right of way was thus granted, made subsequent to the passage of the Act, were necessarily subject to the exercise of this right.
>
> The provision of the seventh section requiring the plaintiff, within two years, to designate the general route of the road as near as might be, and file a map of the same in the Department of the Interior, in no respect affected the grant of the right of way; it only furnished the means by which the Secretary could withdraw the lands within a specified distance of such designated route from pre-emption, private entry and sale.

It will be seen that the only question involved was the right of way for the railroad. The question as to titles to land claims taken up after the grant was made to the railroad company and before the road was located and built, was not before the Court. It is implied, however, that any pre-emption or homestead claim taken up before the line of the road was definitely fixed could not be disturbed. Hence those who have felt concern, because of the former incorrect statement may as well dismiss their fear and be at peace.

Woodhull as a Leader.

The *New Northwest* seems to be somewhat touched by a short article on Woodhull which appeared in the Oregonian some days ago, and attempts a reply. We are not able to see that the attempt is even partially successful. It is said that we spoke of Woodhull in a "filthy style." We did speak of her as a "bawd," because it is sometimes necessary to call a bawd a bawd, lest one may be misunderstood. The *Northwest* speaks of the charges against Woodhull having been "triumphantly refuted in the Courts." Whatever may have been done in the Courts, these facts are known to all the world and have been admitted by the woman Woodhull, viz: She first married a man named Woodhull, whose name she still retains. But he has become old and diseased while she is still in the hey-day of life. Believing that "chastity is a crime," and seeking an affinity, she has taken to her house and to her bed a man named Blood, and boasts of her independence and of her utter contempt of the opinion of the world as to her conduct. She notoriously lives with Blood, to whom she professes to be joined by a sort of "sealing" process, but retains the name of "Woodhull." The *Northwest* speaks of her as the "only woman to whom our law-makers will listen." We haven't heard that they have yet listened to her to any extent, or that anything has been accomplished for woman suffrage by her efforts. The truth is, this disreputable woman, who puts herself boldly forward as the champion of woman suffrage, and who is too much countenanced by the pure advocates of the movement, is doing more to drag it down than they can all do to build it up. Multitudes who would not be unfriendly to the cause itself, will be apt to think that if woman suffrage develops such as she for leaders, it is time to halt. We are glad to observe that the *Northwest* says that "Woodhull is not the woman of its choice." That is good; better still it would be not to attempt a defense of her when her evil doctrines are assailed and combatted, and not to construe denunciations of a bawd as an attack on the principle of woman suffrage. Something is added by the *Northwest* concerning James D. Fay and Hannah Ralls. That paper wants to know if we will "discountenance" Mr. Fay as a "recent recruit in the ranks of Republicanism?" Mr. Fay is not a recruit in the ranks of Republicanism, but is a Democrat of the straitest sect. Hence this digression by the *Northwest* with its supposition that if Mr. Fay should be nominated as a Republican candidate for Governor we would support him, is quite pointless. Republicans wouldn't nominate him; he wouldn't accept a Republican nomination, and we wouldn't support him if he did. Surely the *Northwest* cannot mean to set up the groundless supposition that we would support Mr. Fay as a "recent recruit to Republicanism," notwithstanding the scandal that lately was busy with his name, as an excuse for the conduct of some of the woman suffrage advocates in supporting Woodhull, who is *known* to be impure, and whose doctrines, as published in her own papers, are too abominable to be thought on without indignation.

From Messrs. Bancroft & Morse, booksellers, we have *Scribner's Monthly* for November and December. Also the *Overland* for December. *Scribner's* is fast taking a position as a leading magazine. The *Overland* for this month seems a little heavy, but this magazine is usually so good that it is nothing surprising that it does not in every number come up to its own highest standard; for, as Horace saith, even good Homer sometimes nods. This number contains the first of a series of articles on wine-making in California, a subject of growing interest throughout the country, and an article on polygamy as practiced in Utah, which is well written and timely.

It is now asserted and believed that not one of the Tammany legislators elect will show his face at Albany this winter. Public opinion is too terrible, to be faced by any of the gang, and they are seeking the cover of obscurity. "Tweed, however, still insists that, as he has been endorsed by his party by a vote of three to one in the strongest Democratic district in the United States, he has a right to hold up his head still, and to claim that he is as good as his party.

A Kansas paper, urging enlistment in a regiment to fight the Indians, says: "The service will last three or four months only, and will be a source of health, pleasure and profit to all who enlist." Of course that company, as it is going out for the benefit of its "health," will keep at a healthful distance from the Indians, and will make war only on the commissary department.

Congress meets to-day (Monday). So does the California Legislature. There is intense agony at Sacramento over the Senatorial problem.

MODEL COMPOSITION.—The Essex *Statesman* says a boy in South Danvers wrote the following composition upon his native town, which it thinks is very good for a school-boy:

> "South Danvers is in the United States. It is bounded by Salem and reaches to Middletown. Its principal river is Goldthwaite's brook, which empties into Salem Harbor. Its principal lake is the mill-pond, which is dry in summer. Its principal productions are leather, onions, South Church, and Geo. Peabody. South Danvers has many religious sects, among which are the Orthodox, who worship the minister, the Spiritualists, who worship everything, and the Unitarians, who worship nothing."

The Badge Rule case, on trial at Salem, went to the jury late Saturday night. We are not advised of the result.

Mrs. Duniway at Forest Grove.

FOREST GROVE, Dec. 1, 1871.

TO THE EDITOR OF THE OREGONIAN:

Sir: Our usually quiet village has had some new things to engage the attention of its inhabitants during the past few days. It was announced in the churches on Sunday last that on Wednesday evening, November 29th, Mrs. Duniway would address our people on the subject of Woman Suffrage. On the appointed evening, although the weather was very disagreeable, yet the church was well filled with a deeply interested audience. The lecturer began with what she denominated an account of her stewardship. She traced the different stages of her conversion to the cause in which she is now so zealous, in a clear and forcible manner, often "bringing down the house" with her concise and comprehensive conclusions. Her enunciation is clear and distinct, but not loud; and her manner is at once composed and womanly. She argued that the interests of the sexes are not antagonistic. Said that where men and women met on an equal social plane, there is harmony and purity; but when the paths of the sexes diverge, both men and women deteriorate, and brought many plain points to bear to sustain this argument. She said that she had the day before received a letter from the Grove calling her attention to an article in the Oregonian of a late date, concerning "Woodhull," to which she thought she could not better reply than by reading the "proof" of an article which was already in type for the next issue of the *New Northwest*. She is a fine reader, and the piece was read amid warm applause. Said she hoped nobody would conclude that she was a personal enemy to the Oregonian or any other "man's rights" paper; that on the contrary, she was on terms of personal friendship with the whole of them, while *editorially* she was after every one of them with a sharpened pencil, and would continue so to be until they were worried into granting what the women ask. At the close of the lecture, which was often applauded, she stated that if any person present had aught to say against the right of the women to vote and their duty to exercise that right, she was ready to hear their objections. No one responded. She asked the women if they would vote against the licensing of rum holes and brothels if they had an opportunity, and they unanimously answered aye.

This (Friday morning) the awakened sisters are holding a "convention," of which due notice will be given you. Mrs. Duniway will speak again to-night, and if she does not spoil the impression made on Wednesday evening, she will have good cause to congratulate herself upon her success. T.

An Act Against "Carpet-Baggers."

A few days ago, Mr. Van Bokkelen, of Jefferson County, introduced in the Washington Territory Legislature, "an act to protect the old settlers" of the Territory, and "limit the rapacity of carpet-baggers who may be found running (it) at large." Any person who has an idea of the political situation in Washington Territory, and of the feuds between the "old settler" and "carpet-bag" politicians, will be able to appreciate this piece of satire, which is worthy of a place among the "funny things" of the day. We print it entire:

SECTION. 1. *Be it enacted by the Legislative Assembly of the Territory of Washington*, That the old settlers of Washington Territory are and ought to be considered a privileged class; that they shall, from and after the passage of this bill and the approval by the Governor, be entitled to hold all the offices, both Federal and Territorial, especially the good and paying ones; that they shall be exempt from payment of fare on any stage line, steamboat and railroad, especially by any carpet-bagger or carpet-baggers.

That they shall be exempt from all militia or jury duty, if they so desire, or unless they see or observe an obvious intention on the part of juries of carpet-baggers to find verdicts sinching old settlers. That they shall be allowed at all times and at proper occasions to give their opinion upon the climate, soil, and productions of this Territory, its history, and that of the old settlers thereof, and they shall, upon all occasions be treated with due deference by all carpet-baggers, their stories listened to, believed, and all their jokes duly and heartily laughed at and applauded.

SEC. 2. All carpet baggers within the limits of this Territory shall be considered an inferior class, and shall have no rights or privileges that an old settler is bound to respect. They shall not be allowed to hold any good offices during the lifetime of any of the old settlers, it being a long settled fact that the Territory is capable of furnishing ample talent to fill all the offices that are worth a "cuss."

They shall not be allowed to hunt up the old wives of the old settlers in the Atlantic States or elsewhere, or claim any rights for said old wives, who ought to be ashamed to live so long absent from said old settlers.

They shall be governed by the predictions of the weather made by old settlers, and attribute any mistake made to the changes in climate from the early days when the Territory was first discovered by said old settlers, to the disturbing influences and general derangement of things brought about by said carpet-baggers.

They shall at all times show proper respect and deference when in the presence of any old settler or settlers; they shall not at any time jump their claims, tell better stories or undertake to prove them by other carpet-baggers or other disreputable persons; shall not presume to court their widows as long as said widow or widows have the remotest chance of receiving an offer from any surviving bachelor or widower old settler.

SEC. 3. Any carpet-bagger who shall in any manner offend in any particular recited in Sec. two, or in any way disregard the rights, wishes or privileges of any old settler, shall be tried by a jury of old settlers, and any penalty they may decide, even to the extent of banishment to Wisconsin or other remote parts, shall be meekly submitted to by said offending carpet-bagger.

SEC. 4. For the purposes of this act, any person who was not a resident of this Territory before the late Indian or Yakima war, shall be considered a carpet-bagger: *Provided*, That any person now residing within the limits of Washington Territory who can bring satisfactory proof of three years residence in the Territory of Arizona, two years residence in the State of Minnesota, or one year's residence in Alaska, shall be considered equal in all respects for endurance of privation, peril of life and hard living generally, to an old settlers of Washington Territory of 20 years standing.

SEC. 5. This act to be in full force for and during the life of the *oldest* settler, and all carpet-baggers are strictly prohibited from all attempts at shortening the period by inviting any old settler to drink anything but good liquor, and avoiding all legislation adverse to the full development of claims.

Twenty-one States have voted this year. These are New Hampshire, Connecticut, Kentucky, North Carolina, Pennsylvania, Ohio, California, Iowa, West Virginia, New York, Massachusetts, Minnesota, Wisconsin, Illinois, Michigan, Kansas, Mississippi, New Jersey, Texas, Virginia, and Maine. All but six went Republican, and two of these six (New Jersey and New Hampshire) will be easily won back next year. Conceding them to the opposition, however, and leaving out all the other States which have not voted, the Republicans have already more than a majority of the Electoral College. This is a nice calculation for the Democrats to base their Presidential speculations upon.

The *Financial Chronicle* of New York, which is undoubtedly one of the best authorities in the country, publishes an exhaustive article in which it arrives at the following conclusion:

> The financial prosperity of this country is now established on foundations more broad and safe than any previous period of our national history.

PACIFIC COAST DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Dec. 3.—Gullar Moavella, a Mexican, died suddenly on Broadway, last night.

Blue Mountain Coal Mining Company, capital half a million, to operate in Oregon, is incorporated.

Losses by burning of the printing offices on Clay street, last night, estimated as follows: H. P. Taylor & Co., $7,000, insured for $2,500; Francis & Valentine, $4,000, fully insured; Hughes, by water only, $100; Wilson & Evans, gunsmiths, stock damaged by water $500 to $1,000, fully insured; the *Call* and *Bulletin* damaged $500. The total loss is far less than was at first supposed.

Mary White sues J. D. Mallory for $5,000, for damages for being hooked by a cow.

Weather clear and warm with hardly any wind. The day is one of the pleasantest of the season.

More outsiders leaving for Sacramento to-day, and going to-morrow, than at the opening of any former Legislature.

It is reported that Col. Barnes gets a contingent fee of $10,000 in the Hawes contested will case, which he has just won.

Out of ten thousand shares of stock in Pacific Insurance Company, the assessment to meet the Chicago losses has been paid in only one hundred and seven.

The steamer *Moses Taylor* from New Zealand and Australia is telegraphed outside coming in.

The Mayor elect and the new city and county officers will be installed to-morrow. It is understood, that only a few changes, four or five at most, will be made. In the County Clerk's office Lewis J. Lee will be clerk of the 4th District Court. He was for seven years Deputy County Clerk. John P. Boden will remain Court Room Clerk of the 4th District Court. H. Lamott will be Under Sheriff vice Geo. T. Knox. He was in the same position for several years under Sheriffs Davis and Ellis.

The Pompei and Cogle opera troupe came by the *Nevada* from Sydney; also M. Bizzzi, Italian Consul.

The *Gen. Taylor* brings 123 bales wool and about 70 passengers.

The Washington correspondent of the *Alta*, Nov. 22, writes of the Pacific members, Stewart, of Nevada and Garfield, of Washington Territory, that they have both purchased handsome residences and have settled down in a home-like way, thus identifying themselves as tax-payers with the interests of Washington, and they have taken quite an active part in several meetings held during the past summer in this city. Both are at present temporarily absent. Stewart has gone to Europe to visit his family where they have been residing for the education of his children, and Garfield left a few weeks ago for Washington Territory. It is understood that his visit is for the purpose of inducing the Legislature to change the time of holding the Congressional election in that Territory. Unless altered it will take place next June. As the Delegate would be here attending to his Congressional duties he would be at a great disadvantage for either renomination or an election.

SAN FRANCISCO, Dec. 3.—There are now about thirty-five vessels due at this port from the Atlantic ports and Europe. Many of them may be expected any hour.

It is stated in the Turner Ortiz case since the verdict that if the defendant had not denied under oath ever having had any improper connection with the plaintiff, they would not have given her a cent.

A man, name not reported, was drowned today while bathing near the Ocean House.

The *Necaula* collided with the bark *A. H. Badyes* between Auckland and Sydney. The bark was reported floating until morning, when she was abandoned and sunk; crew saved. The owners of the bark here commenced proceedings for damages against the Steamship Company.

The International Congress agreed on subsidizing the mail service via Suez and San Francisco, and also passed resolutions insisting on the right of the colonies to arrange intercolonial duties without interference of the Home Government.

INTERIOR CALIFORNIA DISPATCHES.

LOS ANGELES, Dec. 3.—Members of the Grand Jury of this county having been in session for twenty-three days, petition for exemption from jury duty for one year, citing the Fair case as a precedent.

The City Attorney last night, at a meeting of the Common Council, rendered an opinion that the city is liable for damages to buildings sacked during the late riot.

OREGON.

The Corvallis *Gazette* has begun its ninth year. It is a good paper, staunch and true, and seems to be prosperous.

One day last week a woman was divorced, and half an hour afterwards a fellow took out a license to marry her.

The Eugene *Guard* publishes a history of the great flood of 1861. It thinks this is timely, as another flood may shortly be coming along.

B. F. Brown, for a long time agent of the Western Union Telegraph Co. at Salem, has resigned, and E. Owens of Jacksonville, has been appointed in his place.

A man named Wilson, who shot another man in June last, and was found guilty of murder in the second degree, and sentenced to the Penitentiary for life, has just been pardoned and liberated, joined his family on Thursday last. The family are living in Dallas.

There are twelve "gin mills" in Eugene. As that place has only about 800 inhabitants, it would seem that nearly all of them must drink, or part of them must drink exclusively. It is said that at Eugene it is a sign of unpardonable weakness to take whisky or brandy with a drop of alloying Wallamet in't.

From the Corvallis *Gazette*: The Yaquina railroad is not a "myth," or a thing existing only in the over-heated imagination of a few friends. We have good reasons for believing that the scheme is assuming a decisive and definite form, and that within ninety days developments will be made public that will be astonishing to all interested in this much needed and too long neglected enterprise.

The Great Scientific Expedition.

Of the scientific expedition fitted out by the Government for deep sea exploration, and placed under charge of Count Pourtales, Prof. Agassiz and other eminent scientists, we have further information from the Boston *Advertiser*. That paper has these remarks on some of the objects of the expedition:

> The study of the currents and of the tides cannot be carried a step beyond the point which has been reached now unless the form of the trough in which the water is contained is known—unless we know all the inequalities of its form, and the valleys which intersect it all over its course. Professor Agassiz's theory is that the great ocean currents flow according to the shape of the bed in which they rest, and are determined by the inequalities at the bottom just as the Mississippi flows from the Rocky Mountains to the Gulf of Mexico between the great mountain ranges. Every fisherman on the coast knows that the Gulf Stream helps him when he goes east, and why the north stream helps him when he goes south if he keeps close to the shore; they move in opposite directions. But nothing is known of the currents which form the Antarctic Ocean and the South Pole and pour into either ocean. All the troubles which navigators experience in rounding Cape Horn are in a great measure owing to the ignorance which exists with regard to the currents and their temperature. Of course the present expedition will not be able to settle all this, but a course of investigation will be begun which, according to Professor Agassiz, will be pursued for the next half century and perhaps longer.

LETTER FROM COLVILLE AND THE ROCKY MOUNTAINS.—From the Victoria *Colonist* we copy the following:

> Angus McDonald, Esq., of Colville, is down from a recent trip to the Blackfeet Plains. At the Rocky Mountains he met the N. P. R. R. surveying party. The vast continent there is wonderfully level from either side until finally closing to a short, oblique, grassy summit through whose heart a tunnel of about 3,000 yards would bind the road at both ends of its destination. The summit overlooks a stream leading into the Missoula, and the road taking that course would run northwest to the Falls of Callispellum, thence due west to the pass of Snoqualmie and to Puget Sound. He thinks the course will be adopted. He remarks that the Canadian line of road is likely to pass the Rocky Mountains by one of the defiles of the 49th parallel and the Pass of Mount Brown, whence doubling the Big Bend, cross the Columbia to Thompson river by one of two Passes between the Rapids de Mort and the 49th parallel.

Kris Kringle's headquarters is at S. L. Stone's, next door to the Postoffice.

Failure of many of the most eminent physicians of San Francisco to cure a case of Rheumatism.—Triumph of the Unk Weed Remedy.

SAN JOSE, August 2, 1871.

DR. A. M. LOUNSBURY & CO.: This is to certify that I, the undersigned, have been sick for five years with Rheumatism, and have been treated for many ailments. My trouble has been weakness of the back and side, and wandering pains all over my body. I have been treated by many of the most eminent physicians of San Francisco, as well as of this city, but without any effect. At last I was induced to try your UNK WEED REMEDY, and the result was that after taking the contents of two bottles I found myself perfectly cured. To all afflicted with Rheumatism, I say TRY THE UNK WEED REMEDY, and you will be cured. Yours truly,

JAMES ALLEN, San Jose.

MONDAY MORNING, DEC. 4, 1871.

CITY.

PASSENGERS FOR OREGON.—The steamship *Oriflamme* sailed on Saturday from San Francisco for this port. The following is her list of passengers: W J McConnell, wife and two children, S F Lewis, Dr W B Temple, Mrs S S Gordon, and two children, Mrs Church, Miss A Skidmore, Miss A Baker, S G Skidmore, G A Biddle, C C Bartlett, C Williams, J Krowsbein, A Miller, J R Sullivan, J Wright, R J Ladd, D J Delong and wife, J Munroe and wife, R Fenton, W Taylor, A Tipler, G S Kinney, B Henry, O Denham, Miss H Wolf, Miss J York, Miss E J Fowler, Mrs J R Parrish and child, Chas Humphrey, Col Ludington, R Carothers, U S Gile, D C Atkins and family, C Atkins, Jas Stuart, A H Blakesly and family.

FAR ADRIFT.—We have received from Tillamook a bit of card on which is written: "Sep 9 1871 On Board Steam Ship Gussie Telfair Off Cape Flattery—whoever finds this please send it to the Editor of the Weekly Oregonian, Portland, Oregon, and oblige." The signature is worn off. As the *Telfair* sailed on the 8th she made a round trip, laid up in port for some time, and is again off north; there is no mystery or even curiosity about the finding of the card, except in the fact that it drifted from Cape Flattery southward to near Tillamook, where it was found on the beach by an Indian, and from Tillamook sent back to Portland whence it started.

SETTLERS.—There are quite a number of newcomers who are looking for farms. It is said that a Mr. Bythecombe, lately from England, has contracted for the purchase of a large and extensive farm, containing 640 acres, known as the donation claim of James Rice and wife, situated about two and a half miles southeast of Hillsboro. This is considered one of the best bodies of land in Washington county. The price is $12,000. For a number of days the real-estate agents in this city have been kept quite busy in "showing around" the new-comers and arranging for transfers of real estate.

FIRE DEPARTMENT ELECTION.—The annual election for a Chief and two Assistant Engineers of the Fire Department will take place to-day. The place of voting is at the house of Vigilance Hook and Ladder Company. Messrs. C. Ball, S. C. Mills and B. L. Norden are the Judges appointed by the Board of Delegates at their November meeting. The friends of the candidates have been actively engaged for some weeks in the canvass, and the contest, to-day, promises to be one of the liveliest we have had for several years.

FIRE BELL MUZZLED.—On Saturday afternoon the foreman of Engine Co. No. 4 found the bell muzzled, so that in case of a fire alarm, it could not have been rung. The ball rope had been hitched around the clapper by some miscreant probably bent on mischief. This act, taken in connection with the recent attempt to burn another engine house, would seem to indicate a desire on the part of somebody to put the "fire fiend" turned loose for once without hindrance from the firemen.

SAN FINO.—The brig *Orient* is at the east side dock loading with wheat and flour.

The *Okanagon* arrived yesterday morning having in tow the *Brewster* from San Francisco.

The British bark *Barracouta* from Liverpool arrived in the Columbia river on Friday. She is consigned to Janion & Rhodes.

The schooner *Mila Bond* from Tillamook is also in the river with a full cargo of Tillamook produce.

A SEWING SCHOOL.—Several ladies have organized a school for the purpose of teaching young girls or others who may desire instruction in the mysteries of needle work. The class will meet at the Unitarian chapel, on Seventh street, on Wednesdays and Saturdays of each week, from 2 till 5 P. M. The teachers will have a meeting next Wednesday afternoon for the purpose of perfecting arrangements.

PASSENGERS FOR VICTORIA.—The following is the list of passengers per steamer *Prince Alfred*, which sailed on Friday from San Francisco for Victoria: Jas McKay, Sebastian and wife, Mrs Huddleston and two daughters, Marriner and wife, R H Bickersteth, B Price, F Leach, W Smith, J Sabs, C Warwick, W F Impett, N Flotcher, C McNab, J Goodfellow, E G Warnham, and 30 in the steerage.

SAILING OF THE CALIFORNIA.—The steamship *California* sailed Saturday evening for Puget Sound and Victoria, taking the following named passengers: R G Batchelder, J L Folke, A Reynolds, Fred Gelc, Fred Saunders, Chas Perkins, J Meaghur, A J Duncan, J R James, Carl Bosco, K Rappely, Thos Totter, W Angell, H Patterson, and 10 in the steerage.

AMERICAN SALTY OLD DAY.—Yesterday we were visited by one of the heaviest spells of weather of the season, thus far. There was a strong, gusty, south wind, accompanied by rain, hail, snow, sleet and all the bad et ceteras. The ordinary precautions against wet weather were nearly useless, and whoever had occasion to be out was out of luck.

ROLLER SKATING.—There is every night a large crowd at the Pavilion to witness the astonishing feats performed by Miss Carrie A. Moore on roller skates. Aside from the attraction of the star skatist, the amusement is becoming more popular every day with all classes of people, and the Rink is becoming the favorite resort.

YOUNG' LITERARY SOCIETY.—A society bearing this name has been organized in this city and the following officers elected: President, Samuel Simon; Secretary, Louis Blumauer; Manager, Samuel Beck; Treasurer, Benjamin Mayer, Jr. The Society's rooms are on Sixth street, between Oak and Pine streets.

THE MARITAL TIE AT VANCOUVER.—The late court in Clark county, W. T., didn't divorce worth a cent. Of all the suits brought to untie married people, only two were successful, and the *Register* says that in them the grounds for divorce were good.

TEMPERANCE LECTURE.—Rev. W. H. Meiere will deliver a lecture at Nonpareil Hall, corner of Madison and First streets, next Wednesday evening. Subject: "The Samaritan the only free-mason."

LOCAL BREVITIES.

The suits for the possession of the Carothers' estate have been continued till next term of Court.

The matter of a new trial for Ned Percy has been taken under advisement by the Court till this morning.

THE GRAND DUKE ALEXIS has signified his intention of coming as far west as San Francisco. He will not be able to visit Portland, but he has given orders to J. O'Neil & Co. for a suit of clothes, as he is well aware that at that establishment can be had the best fitting, most stylish, and to clip the climax the cheapest suits to be obtained in this city. Not only have they excellent clothing but they have a full stock of Star Shirts, new ties, underskirts, drawers and the famous Quaker Umbrella. It is unnecessary to say more. Go to O'Neil & Co's 95 First street, and rest assured you will be pleased with what you see.

Work of every description to the house building line will be done at short notice to the best of satisfaction.

BOARD OF FIRE DELEGATES.

The regular meeting of the Board of Fire Delegates was held last night, President Hallock in the chair.

Present—Messrs. Moffett, Williams, Mayor, Backenstos, Hardenburg, Walling, Lyons, Knott, Wicks and Wetzell.

Minutes of previous meeting read and approved.

The Judiciary Committee reported that as John Wigginton had not signed the Constitution of Protection Engine Company No. 4, within thirty days after his election, he is therefore not a member of that Company. The report, on motion, was adopted.

The Committee on Certificates submitted a report to the effect that as the petition of Joseph Webber for an exempt certificate is not properly certified to by the officers of the Company of which he claims to be a member, that the prayer thereof be not granted. After considerable discussion the report was referred back to the Committee with instructions to ascertain whether Mr. Webber's resignation is on record.

A communication was read from Vigilance Hook and Ladder Company, stating that the election of John L. Thomas to that Company was null and void, owing to the fact that at the time of said election Thomas was an expelled member of the Department. Placed on file.

Adjourned.

As S. L. Stone is closing out at cost his fancy goods, toys and willow ware, this is the last chance to buy cheap.

I say, mister, where is the Postoffice? Why, it is next door to S. L. Stone's cigar and tobacco store.

Everybody says S. L. Stone is selling the best bit and two bit cigars in the city.

Boss Tweed and others of the Tammany Ring have been stirred up very lively of late, but that is nothing compared with the excitement caused by Kohn & Fisle, who have stocked their large clothing establishment, No. 91 Front street, with goods for winter wear to suit all classes, not only in style but in price. Seeing is believing, so go and examine their stock.

TESTIMONIAL.

We the undersigned having been the local pianists of the services of Mrs. M. C. White in teaching the science of Music on the Pianoforte, take pleasure in giving a hearty testimonial that we have employed her in our families as a teacher of her "New Method of Instruction," and that it has proven superior to any method we have ever known. And that although the first cost may be a trifle greater than some others, we believe it to be in the aggregate much cheaper, beside being a great economy in point of time. We, therefore, take pleasure in recommending her to the patronage of all who may be desirous of obtaining a musical education, as a very superior instructor.

To those who desire to know more about it before increasing any expense, we give a cordial invitation to call at our homes and interview her pupils.

Winter Wisdom.

Warm clothing alone will not protect the body against the consequences of the sudden depression of temperature which is concomitant of early winter. Flannel next the skin preserves the animal heat, but it does not impart animal vigor. That property is the special prerogative of Hostetter's Stomach Bitters, which is therefore a specific protection against a majority of the complaints which are most common at this season. For example, a course of the great vegetable invigorant, commenced now, will be almost sure to preclude chills and fever, bilious colic, disorders of the stomach, constipation and many other complaints which are often the direct or indirect effect of an atmosphere surcharged with cold, unwholesome vapor. Moreover, the system toned and regulated by this means is much more likely to resist pulmonary disease than it would if otherwise be; for the influence of searching medicine pervades all the organs, and every fiber and tissue of the frame. Persons whose vital powers are weak, especially invalid ladies and the aged, are earnestly recommended not to face the winter's rigor without having recourse to this safe and sufficient means of re-enforcing an enfeebled nature. Much suffering may be escaped, much danger averted by following this council. "Better late than never," is a good proverb, but it is better to be early than late.

NEW YORK
LIFE INSURANCE COMPANY!
PURELY MUTUAL!
ASSETS $17,000,000!
ISSUED 9,025 POLICIES IN 1870.
Insuring Over $27,000,000!
WM. H. BEERS, Vice President and Actuary. MORRIS FRANKLIN, President.
AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are:—
1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.
2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.
3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premiums on gold, &c., has been sufficient during the past two years to pay accruing losses.
4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.
5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.
6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commenced. In this Company a party always has a dividend which can be used in the payment of the *second and all subsequent annual premiums*.
7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.
8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although equitably claims, are not LEGALLY so. The records of this Company bear many acknowledgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly unite, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

THE UNDERSIGNED, THE OLDEST CLOTHIER in the State, thankful

Gorgeous Fisk, Jr.

[From the N. Y. Tribune.]

The newest phase of the Fisk-Mansfield scandal is funny, even if it is disgraceful. The irate Helen, who knows more about the dark tricks of Erie than is safe for her discarded Fisk, brings action for libel, and incidentally makes affidavit that the gallant Colonel has stolen away her colored Ganymede, one King, and made him swear to a lie about her. In these affidavits we have the whole *modus operandi* of the gorgeous Fisk, jr. There is his elegant chariot taking away the faithless young colored servant, who, dazzled with a vision of Erie luxury, wages galore, and nothing but swearing to do, turns against his mistress and becomes the obedient tool of the man who is more prosperous in his suits at law than suits in love. Then there is the Abigail of the distressed Helen, who tells the relentless Fisk to his face that he ought to be ashamed of himself, so he had—as if that brazen face had any blush left under it. And, to crown all, we have the spectacle of this person, who assumes to be a decent citizen, appearing in court to be held in bonds in the amount of $3,000, to answer the charge in which he is involved with his lost Helen, her black boy, *et chez femme, de chambre*. No wonder that Erie feels harassed before its time. But wait till the Legislature meets!

Our Land Laws.

A dispatch from Washington, November 17, gives this:

The Commissioner of the General Land Office has just completed his report for the last fiscal year and accompanies it with several important recommendations concerning the legislation desired for the greater efficiency of the Bureau. Among these are the consolidation of the homestead and pre-emption laws into a single, uniform and comprehensive statute; the reduction of the time of actual service from the term of occupancy required to obtain a title under the homestead act, and the appointment of a commissioner in the various States and Territories to adjudicate the contested claims and decide the titles to tracts of public lands which are in dispute. This system was satisfactorily tried in California. Something equivalent is imperatively needed at this present time. The disputed lands are, in some of the Territories, covering one-third of the entire public domain, or a tract equal to several moderate sized States. The Commissioner also urges the appointment of special Commissioners to examine the condition and operations of the various branch offices through out the country.

FINANCIAL AND COMMERCIAL.

SATURDAY, Dec. 2, 1871.

Gold in New York, 110¼.

Portland Legal Tender quotations: 90c buying, and 91 selling.

The public dispatches contain the following: Bonds, 111¼@111¾. Sterling, 9½@9¾.

London, Dec. 1—The final settlement of the United States funded loan was made on Tuesday without disturbing the money market, bonds closing higher than ever before and the loan advancing to 90¾ gold, the settlement was anticipated. A portion of the loan was unsettled at the opening of the week, but the amount of bonds and bills to the value of nearly £15,000,000 sterling, and bills to the value of £9,000,000 sterling was sold in London, leaving less than £5,000,000 sterling disposed of with the Continent to bear from. There is no doubt that the whole of the loan in European markets is taken.

The brig *Brewster*, with cargo of assorted merchandise from San Francisco, is under tow from Astoria, and will arrive her landing to-morrow (Sunday.)

The bark *Barracouta*, with cargo assorted merchandise from Liverpool, England, consigned to Junion & Rhodes, is at Astoria, and will be towed up on Tuesday.

The brig *Wide Wind*, from Tillamook, is now at Astoria.

No vessels are reported off the bar, by

The steamer *Orizaba* was left San Francisco this morning for this port. She is due Wednesday morning.

The steamer *California* left withfull cargo for Victoria and Sound ports. We could only procure her manifest for Victoria, but was informed it was only one-quarter of her cargo for [illegible]

The brig *Orient* will complete her cargo and go to sea the latter part of next week.

The amount of freight, principally for Sound ports, offering to-day surprised many. The steamer, though large is fully loaded, was unable to take all. It is said that enough is left over to very nearly load another steamer. This only shows what our trade with Victoria and Sound ports will be when regular communication is established by the North Pacific Railroad, which, we are assured by a prominent gentleman of the Company, will be completed within a year, so that both passenger and freight cars will be running from the waters of the Columbia to that of Puget Sound. We are also informed that the N. P. R. R. Co.'s policy is to have the freight tariff established at rates that will build up the country through which it runs, so that they may in their power, export freight tariffs at such rates as will give our city the preference over San Francisco for the Sound trade.

In the opening of the Pork packing season we took the ground that the market for the Hog product must advance, which is more than confirmed by leading commercial journals, who, though at the same time they warn packers against advancing rates early in the season to a figure that will stop shipments to Great Britain and the Continent, which will react against the market. The last season opened with high prices under speculation stimulated by the war in Europe causing a large demand, which [illegible] tion of hostilities was followed by prices [illegible] by falling, until they reached from 25 to 50 per cent. on ruling rates during the war. The decline East can be better understood by the following comparison of prices in New York:

	March 17, 1871.	Nov 14, 1871.
Pork, mess, per bbl	$21 75	$13 10
Pork, clear, per bbl	22 25	14 25
Lard, prime steam, per lb	10¾	9¾
Bacon, long clear,	10¾	8¾

In October prices were even lower than in November, as Prime Mess Pork sold for $10 50 per bbl. As a consequence packers have acted with great caution, only packing as the trade demanded, and although by comparing the number of Hogs slaughtered since September 1st with the like period of last year it will be seen that the [illegible] of the Packing market East is bare, as the demand for export and home consumption has been so large as to exhaust that has been put up, and even buying for future delivery into January and February of next year. One of the best authorities East says that the number of Hogs that will be slaughtered during the present season will show an increase of one-sixth, being an aggregate for the season of 4,200,000, against 3,600,000 last season. In this we are inclined to think, from the receipts in Chicago, Cincinnati, Boston, and New York, that he will fall short, as up to the present mail advices from the East the receipts from November 1st show a combined increase of over 50 per cent. The same authority says that the average weight will show a falling off of about one-twelfth, which is less than it [illegible] however, as corn shows a falling off 22 per cent. The cause adduced to show why there will be a falling off East are stated thus: "The new Corn has reached a marketable condition much earlier in the season, and in many [illegible] markets brings good prices. It's was assigned by us in September, the grower has therefore a strong inducement to sell his Corn in preference to feeding it to Hogs which, at present prices, will hardly pay for the labor required in attending to them, and the result must be fewer and lighter Hogs of medium weight to make them." The destruction of the whaling fleet may ultimately have a great influence on the market, by creating a large demand for Lard Oil at enhanced rates, to meet which prices of fat hogs will be advanced so as to induce more feeding. Although the exports from New York, as the annexed table shows, are increased over 50 per cent. from January 1st, 1871, to November 18th as compared with the like period of last year, yet the export demand is increasing instead of decreasing. The following is a statement of Provisions exported from New York since January 1st, 1871, compared with the like period for 1870:

	1871.	1870.
Pork, bbls	146,861	74,104
Beef, bbls	114,740	70,263
Bacon, lbs	71,585,700	24,694,900
Lard, lbs	102,085,000	28,576,300

As to the to the market on the Pacific coast, we find that the consumptive demand has greatly increased, which requires constant importations from the Western States to meet. The number of hogs that will this season be slaughtered in California is estimated, independent of those brought from the East by rail, at the number of an average slaughtering season, two were so informed by a large dealer in California), with no stocks of Cured Meats accumulating, as has heretofore characterized that market. In one State the number that will be slaughtered will not vary much if any from 2,500 less than last season, which, with a falling off in weight, will cause a very marked falling off in quantity. Our home consumption has increased largely, which will require more than all the Cured Meats put up here to supply the demands of this market.

Produce Market.

WHEAT—One private dispatch received this afternoon gave Liverpool quotations at 12s 9d, and another gave it at 12s 8d with the San Francisco market at $2 40@2 50@2 55 per cental. These quotations have completely unsettled our market. Only one firm is in the market and they are only offering as extreme rates $2 15 per cental for small lots on the spot. In the absence of any transactions we quote market at $2 10@2 15 per cental.

FLOUR—Dealers very busy to-day filling Victoria and Puget Sound orders. The amount sent forward to Victoria was about 1,400 bbls and that to Sound Ports about 2,000 bbls. We quote market at $7 25 @bbl for standard brand; country brands $7 @bbl, outside brands and superfine $6 50 @bbl.

OATS—The report of there being 18,000 centals in a warehouse in Washington county awaiting shipment to this market proves to be largely exaggerated if we are rightly informed. We quote market at $2 50@2 65 @ cental. sacked.

BOOS—Our San Francisco exchanges of last week give market there at 55c @ doz. Prices here show an advance, now quotable at 55c to dealers and jobbing at 60c @ doz.

HAY—Demand good with little coming forward. We quote market for Timothy baled at $30 @ ton; other descriptions at $16@20 @ ton.

PROVISIONS—The new cuts are coming in in fair condition if Keller's, offered by his agent, W. Gullick, is a fair sample. Though not as heavy as last year, in other respects it is superior. Jobbing rates for breakfast Bacon, 15½c; Sides, 13c; Hams, 17c. Lard, 15@16c.
